

## PORT HAVEN CAMP PROJECT, WESTERN AUSTRALIA

SFL Piletech WA increases footprint in the North West. SFL Piletech WA recently completed work on the Port Haven camp project in Port Hedland.

We had the pleasure of working with Decmil on this BHPB site. In conjunction with the installation of screw piles we also offered ground works which assisted in the safe and timely completion of the first stage. To this point we are pleased to announce that we have also been appointed to install screw piles in stage 2.

In addition to the above works we have just started another camp at the Pardoo Iron ore project. This will be the first stage of a 470 man camp, the overall resource of this ore body is well over 900 million tonnes of export grade iron ore. Red resources are the main camp contractor for this project.

If you require any information please contact Richard Douglas 08 9279 5600 or 0458 044 820.
